Reference: The Education Team

I want to take this opportunity to express my deepest appreciation for the services rendered through The Education Team. The Child Abuse Council has been a business partner with Larry and his team for approximately 7 years. The Council has faced many challenges with recruitment, and retention of staff and through the resources and expertise of The Education Team we have developed and maintained more trained and stable employees for our childcare centers. Their expertise has been invaluable in the area of operations and the overall maintenance of our facilities. We have developed strategies that work by having action plans designed to meet our needs. Communication has been a key element and Larry's ability to build a strong relationship between us.

Larry Milov and The Education Team get our recommendation and we look forward to continuing our partnership and we count on more great successes with them. They are simply awesome and our expectations of them continue to grow and they are willing to meet our request with positive energy, smiles and handshakes.

Sincerely,
Angeleah Kinsler
Director of Human Resources
The Child Abuse Council
